

Naperville Township Electric Aggregation Program Update April 18, 2017

The current Naperville Township Electric Aggregation program delivery period is May 2014 – May 2017 with Constellation Energy as the supplier. Effective June 2017 the supplier will switch to Dynergy Services out of Collinsville, IL. The term is 12 months, so the program will run June 2017 – June 2018. The fixed rate will be \$0.06952/kwh with a guarantee to match the ComEd price, if ComEd's price is lower. The new supplier is in the process of sending notices to residential and retail customers on the supply change, along with opt-out information. Constellation and Dynergy are the major suppliers to the communities in our region which participate in electric aggregation programs, with about 85% of the market.

The aggregation program was passed by referendum in November 2012. Residents can choose to opt-out at any time.
